

Ecoasis has applied for a third phase of development along Hanington Road.

Property-wide environmental and hydrological reports are now available for public information at the following web link:

<https://bearmountain.ca/news/bear-mountain-highlands-news/>

Ecoasis invites you to a Public Information Session to learn about our land use plans, and to meet members of our Ecoasis team and the professionals responsible for the preparation of the reports.

**Who: Residents of the District of Highlands**

**What: Public Information Session / Questions & Answers**

**When: Wednesday, April 18**

**6:00 – 7:00 PM - Doors open to public, boards will be on display**

**7:00 – 8:00 PM – Presentation and Q & A**

**Where: Highlands Community Hall**

Please join us to learn more on the following topics:

- Aquifer Stewardship and Environmental Best Practices.
- Ecoasis Subdivision Applications (Phase 1A & 1B) – lands within the Urban Containment Boundary
- Ecoasis Rural Land-Use – lands outside the Urban Containment Boundary (a future rezoning application)
- Discussion on the Master Development Agreement (MDA)
- How Ecoasis Lands Connects/Integrates to the Highlands Community – planning ideas

The Public Information Session is not part of the Municipal application process; rather an opportunity to exchange information associated with the Ecoasis zoning approvals and MDA, new information that reflects present day golf irrigation practices, future land-use objectives, and south Highlands' planning ideas.
